

Looking after you and your data

Once a person contacts MSI Reproductive Choices UK, their data is stored securely. Every client receives a personal pin number at the appointment booking stage that is only known by them and MSI Reproductive Choices UK, and assists us in keeping information absolutely personal and secure.

As a provider of NHS funded services, we have to meet stringent data protection rules as set out in the Data Protection Act 2018 and the EU General Data Protection Regulation.

The contents of the statutory HSA4 form used as part of the legal abortion care regulations in the UK are completely anonymous and are submitted to the Department of Health for statistical purposes only. The details submitted are as follows:

- Client's Reference number only
- Ethnicity
- Marital Status
- Geographical Location (UK Postcode)
- Date of Birth

If you have any further questions regarding this, please ask any member of MSI Reproductive Choices UK staff.

Please note that treatment is subject to your clinical assessment and treatment availability as advised at the time of booking
